EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard Berg on 6/13/06.

The application has been amended as follows:

Please see attached amendment to the claims, specification and title.

Please note that the change of overlap to relative alignment is not considered new matter because the new term is more in line with the spirit of the invention in the disclosure and figures.

Reason for Allowance

The following is an examiner's statement of reasons for allowance:

Independent claims recite the limitation of a pattern formed on each of the 4 layers of semiconductor wafer. The patterns cooperate to form a rectangular frame and relative alignment accuracy is found.

The above features, as explicitly recited, and in combination with the other elements of the claim are neither disclosed nor suggested by the nearest prior art of the record.

Morikawa (5308682) teaches forming patterns on semiconductor wafers but does not teach that the wafers form a rectangular frame nor does it teach the patterns claimed in the independent claims of the applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hadi Akhavannik whose telephone number is 571-272-8622. The examiner can normally be reached on 10:30-7:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Mancuso can be reached on (571)272-7695. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
